

## PRESS RELEASE

15 January, 2009

### **STUNNING VENUE ROOMS FOR HIRE AT EXCELLENT PRICES**

Historical Victorian manor and exquisite meeting and training venue– Ladybridge Hall – now has rooms available for hire.

The hall is situated within a beautiful mature-wooded setting with easy access to the motorway network. It features eight well-equipped rooms suitable for a range of uses, including away days, meetings, training courses and presentations for both small and large groups.

Owned by North West Ambulance NHS Trust, Ladybridge Hall is perfect for those seeking a service level and an excellent working lunch - without having to pay 'hotel and conference' venue rates.

Anne El-Garidi, General Manager of Ladybridge Hall, said, "The aim of the recent improvement programme has been to refurbish all areas of the hall whilst making it fit for its new purpose as a meeting house. Each meeting room is unique and seating can be re-arranged to suit any need. Most of the rooms and public areas reflect the Hall's distinguished origins.

"All rooms can be booked complete with data projector and screen, laptop, flipchart, TV and video and overhead projector."

After a morning of hard work, delegates can relax in the newly appointed dining room with a delicious selection of freshly prepared hot and cold dishes, desserts and puddings with healthy options always available.

For more information or to view Ladybridge Hall or make a booking, please contact (0)1204 492419 or e-mail [lbhmeetingrooms@nwas.nhs.uk](mailto:lbhmeetingrooms@nwas.nhs.uk)

**Note to Editors:**

- North West Ambulance Service NHS Trust was established on 1 July 2006 with the merger of the Cumbria, Lancashire, Mersey Regional and Greater Manchester Ambulance Services, the aim being to provide the best possible ambulance and pre-hospital care service to the people of North West England.
- The Trust works with other partners to develop new ways of delivering emergency and urgent healthcare to the patient.
- The Trust will seek to minimise unnecessary emergency hospital admissions through the provision of suitable alternative pathways of patient care and by working with our NHS partners.
- We will strive for patients to receive appropriate care and experience from consistently getting the right response, first time, in time and in the right place.
- The new service covers an area of over 5,400 square miles with a population of over seven million people.
- The Trust employs around 4,470 staff
- Almost 1,000 emergency and non-emergency vehicles operate in the region.
- 780,000 emergency calls are received each year.
